CERTIFICATIONS

Oracle <i>Certified Java Developer</i>	Expected January 2027
Amazon Web Services <i>Certified Developer Associate</i>	Sept. 2025–Present
The Linux Foundation <i>Certified Kubernetes Administrator</i>	July 2025–Present

PROFESSIONAL EXPERIENCE

Black Duck , Remote <i>Application Security Engineer</i>	Nov. 2025–Present
- Own the successful deployment and operationalization of enterprise DevSecOps applications involving AppSec policy design, cloud platform installation, container orchestration, CI/CD pipeline instrumentation, system administration, integrated IAM, compiler invocation tracing, codebase and package manager analysis, developer workflow rollout, automated vulnerability JIRA ticketing, network security troubleshooting and SBOM reporting. - Deploy and troubleshoot Kubernetes and Docker Swarm installations, addressing issues such as ingress routing rules, helm commands, container settings, Postgres extensions, sizing, compatibility, service communications, certificates, load balancer settings and environment secret misconfigurations. - Operationalize enterprise-scale vulnerability investigation, CVSS vector scoring analysis, CVE submodule mapping, risk triage, remediation workflows, status reporting, alert automation and policy management.	
2U , Denver, CO <i>Software Security Specialist</i>	Mar. 2021–Aug. 2024
- Provided engineering support for full-stack codebases and cybersecurity applications across 100+ partner education programs, earning 4.9/5 CSAT score. - Diagnosed and resolved 1000+ system misconfigurations and programming errors across Azure, React, Node, npm, SQL, Docker, Linux, Bash, Splunk, Wireshark, Burp, Metasploit, Git, REST and GraphQL via live debugging sessions. - Performed code reviews, API endpoint automated testing, user acceptance testing, quality assessments and system command/configuration verification for 4000+ student deliverables within timed and audited ticketing workflows.	
Athenahealth , Boston, MA <i>Application Integration Engineer</i>	June 2016–Mar. 2019
- Automated data processing by configuring, testing and deploying to Production 150+ application integrations, implementing security protocols, user IAM, data pipelines, batch processing, event-driven triggers, troubleshooting ingress/egress traffic and managing Go-Live and post-deployment monitoring. - Led real-time incident response for 40+ escalated connectivity disruptions impacting Go-Live-Critical enterprise projects involving data transmission failures, backlogged message queues and data pipeline misconfigurations. - Secured sensitive patient and financial data integrations by configuring and troubleshooting encryption, authentication and availability involving IAM, SAML, HTTP/S, mTLS, IPsec, packet captures, cron jobs and network settings.	

EDUCATION & HONORS

Harvard Extension School , Cambridge, MA <i>Full-Stack Coding Bootcamp</i>	Sept. 2019
U.S. Department of State , Madrid, Spain <i>IE University Fulbright Assistantship</i>	Dec. 2015
University of Southern California , Los Angeles, CA <i>Bachelor of Science in Mathematics and Economics</i>	May 2014

TECHNICAL SKILLSET

EXPERT (L4): Applications Engineering, Troubleshooting, Software Integration, Technical Solutions, Logging, Monitoring
ADVANCED (L3): DevSecOps, Incident Response, JavaScript, VSCode, MERN (React, Express, Node), Git/GitHub, REST, HTTP/S, Agile/Scrum, API, JSON, HTML/CSS, Postman, Browser DevTools, Linux, JIRA, OSI, 365, RBAC
PROFICIENT (L2): AWS, DevOps, Automation, Scripting, CI/CD, Azure, SSH, microservices, IaC, systemctl, TCP/IP, NAT/CIDR, DNS/nslookup, SQL, MongoDB, mTLS, SSO, IAM, OOP, Bash, Kubernetes, Wireshark, Splunk, AI, VPN/IPsec, cURL, YAML, GraphQL, Docker, Windows, OWASP, SCA, SBOM, SAML, MVC, CVE/CVSS, Java
FUNDAMENTAL (L1): Python, Ansible, FinOps, firewall-cmd, TDD, vim, OSINT/nmap, PingFed, jq, Cyber Kill, Defense in Depth, CIS, Metasploit, IDS/IPS, etcd, AD, Helm, crictl, PowerShell, MITRE, PKI, ELK, venv, SAST, Grafana, make
